Slp Alamo, Wyer, San Juan
Slp Ringlander, Drake, San Francisco
Slp Eagle, Pritchard, San Juan.

LOWER FRASER.—The Bachelors of New Westminster gave a ball on Tuesday night. The affair was very successful. The Committee of Management of the Yale Reading Room have donated \$26 25 to the Royal Columbian Hospital. Four sailors belonging to the ship Clarendon, now loading at Moody & Co's Mills, were drowned on Sunday last, in an attempt to reach Puget Sound. The people of New Westminster are moving for an agricultural show. Mr. Claudet, manager of the New Westminster branch savings bank, has been complimented by the Commissioners for ability and assiduity. Large contracts for dyking on the Lower Fraser have been given out. The Guardian reports the suit of the Chief Mate of the British ship Helmsstone vs the Captain and Owners of that vessel, which is now loading at Barrard Inlet. The plaintiff shipped at San Francisco for a round voyage to terminate at Liverpool. The pilot was in charge as the vessel neared Moody's wharf and the Captain was standing watching the progress of mooring the ship. He had called several times to the chief officer and ordered him to do what the plaintiff conceived to be in opposition to his instructions from the pilot. The result of a number of contrary orders from captain, pilot and mate was a vast deal of confusion, and in the midst of it the captain sprang on board and took charge of the vessel; according to the plaintiff, ordering the latter to leave the ship and in the hearing of the men declaring him to be no longer an officer of that vessel. The plaintiff accordingly removed his clothes ashore, returned to the captain and demanded his certificate, which the latter refused to give up. The evidence for the captain was an entire contradiction of plaintiff's witnesses, and alleged bad language, drunkenness and insubordination against plaintiff. Both parties conducted their cases in person and the plaintiff showed considerable ability in examining witnesses. The jury, after a lengthy consideration, returned a verdict for \$160 with costs in favor of the plaintiff, who had claimed \$500.

I. O. OF F.—A delegation headed by District Deputy Grand Master J. S. Drummond of the I. O. O. F., proceeded to New Westminster on Wednesday for the purpose of instituting a new Lodge of the above Order. The Brethren were met in a cordial manner by the Brethren of New Westminster and conducted to their new Hall, which is very handsomely furnished and reflects credit on the taste of those who have been engaged in furnishing the same. After the Lodge had been duly instituted the following Brethren were elected officers for the present term: W. J. Armstrong, N. G.; J. T. Scott, V. G.; I. V. Edmonds, Secretary; D. S. Milligan, Treasurer; G. Turner, Permanent Secretary. After the election numbers united with the institution and they continued their work from 9 o'clock in the evening until 11 o'clock, numbering fifteen, returned to Victoria by the Enterprise. The Lodge starts under most favorable circumstances, and we say, success attend it.

MISREPRESENTATION.—It has come to our knowledge that Mr. DeCosmos and others in his interest are endeavoring to create sympathy in the public mind by privately stating that all words in excess of the six hundred covered by contract are supplied to this journal by the Telegraph Company free of charge, and by otherwise misrepresenting the relations which exist between the two journals and the company. Now, we take occasion to state, once for all, that this journal is not supplied with any free words. The publishers of the Standard have a contract with the company for six hundred words, which contract is an exact copy of our own; and we have no reason to doubt that were the publishers of the Standard desirous of obtaining the same number of additional words as are taken by us they could have them upon the same terms. The real trouble would appear to be this:—The publishers of the Standard do not want to take and pay for any more words than six hundred, and they desire to restrain the publisher of the Colonist from taking more.

SWEETING THE OCEAN BOTTOM.—Science is busily at work exploring air, earth, and sea. During the past summer and autumn, an expedition has made many remarkable discoveries in dredging the bed of the sea from the Bay of Biscay to the Faroe Islands, from a depth of a few fathoms, near the shore, to nearly three miles out at sea. It is ascertained that there is a stratum of warm water from 150 fathoms upward, a stratum of ice-cold water from three hundred fathoms downward, and a stratum of intermediate between the two. It was formerly supposed that no animal could exist lower than 300 fathoms, but various forms of animal life have been brought up from the profoundest depth of the ocean, many species having been found altogether new to science. Some of the animals brought up from a depth of 1270 fathoms, or nearly a mile and a half, had perfect eyes, while the color of their shells indicated the influence of light.

THE ENGLISH MAIL brought by the Isabel on Wednesday evening was a pleasant surprise to many and all the more welcome because it was brought without charge, fee or reward by Capt. Starr, but for whose kindness it must have remained until Monday next at Port Townsend. By the way, it may not be generally known that notwithstanding the frequent occasions the Colony has stood indebted to Capt. Starr for similar service during the past nine months, he has not received one dollar of compensation, and that, even when (as in the latest case) he has crossed the Straits twice in one week with the object of obliging the Victoria public, full harbor dues have been charged. Surely, such important and disinterested services are deserving the consideration of the Colony, who derive all the benefit from the extra trip.

The New York Herald treats as buncombe the proposition in the United States Senate of Mr. Howard, of Michigan, to instruct the Joint High Commission to negotiate the cession of British North America to the United States. It adds, "From Mount St. Helens, the high white peak of Alaska, let the eagle scream."

THE CANADIAN PACIFIC RAILWAY.—Our New Westminster contemporary has, we observe, fallen into error respecting Sir John A. Macdonald's attitude towards the railway. In modifying the Address so as not to commit the House to the construction of the railway Sir John was perfectly right. The terms of Confederation were not before the House at all, and it was neither the proper time nor manner to ask members to commit themselves to the most important item in the terms. Our contemporary may rest assured that the railway is perfectly safe, and Sir John true to the colony.

CARIBOO.—We have files of the Cariboo Sentinel to the 25th ult. The news has been for the most part anticipated by telegraph. The Welshmen of Cariboo had made arrangements for holding their annual festival on St. David's Day (1st March). The weather had been stormy, with a good deal of snow, blocking up roads and trails. Considerable numbers of men are preparing to go to Omineca. John Metz, an old Caribooite, had his feet badly frozen while going to Keltley Creek, where he lay in a helpless condition.

The steamer Enterprise, from New Westminster arrived yesterday afternoon, bringing Barnard's Express, a Cariboo mail and \$60,000 in gold. The following is the passenger list: Drummond, Gowan, F. J. Weiler, Sehl, Haywarp, Vagabond, Mitchell, Roberts, McNiff, Desnoyville, Cuthbert, Taylor, Cowie, Clark, Capt. Houghton, Carter, Russell, Stone, Henney.

POLICE COURT.—Supplementary Magistrate O'Reilly officiated at this court yesterday, in consequence of the continued illness of Judge Pemberton. There were two cases adjudged for violation of the liquor law. James McGilvray, the vagrant, and Edward Williams, for selling whiskey to Indians, were each fined \$100 or in default of payment, 3 months' in the chancery.

PASS IT.—We understand that Mr. Nathan will introduce a bill in the Legislative Council to-day to authorize the payment by the Corporation of Victoria of the sum of \$318, arrears of salary due the teachers of the Local Board of Education. The Council should suspend the rules and pass the bill immediately.

FROM NANAIMO.—The stmr Sir James Douglas, Capt. Clarke, arrived at 4 o'clock yesterday afternoon, bringing Chief Justice Begbie, Rev. Crosby and Messrs. Dawes, Levi, Sabiston and Muir. The Shooting Star will be loaded and will sail on Saturday for San Francisco.

ONE HUNDRED AND THREE ACTS.—Before the prorogation of the Ontario Legislature, on the 15th ult., the Governor's assent to one hundred and three Acts passed during the session was announced.

NOTARY.—His Excellency the Governor has been pleased to appoint Mr. Edwin Johnson of the firm of Parkes & Johnson, of this city, a Notary Public.

ST. PATRICK'S DAY.—This being the anniversary of the birth of Ireland's Patron Saint will be observed in a fitting manner by his grateful fellow countrymen. In the evening a grand soiree will be given by the McClure Street Dancing Academy.

SAFE AND SOUND.—The numerous friends of the passengers will be glad to learn that the steamship Pacific made a good run down, having arrived at San Francisco on Wednesday, four days from this port.

LICENSING COURT.—Yesterday a Court for granting licenses was held by Justices O'Reilly and A. R. Robertson, when licenses were granted to W. Farron for Skeena Forks, and Mr. Newman for the Queen's Head.

TENDERS will be received at the Town Clerk's office until Tuesday next for the repair of Johnson street above Quadra at the place where the quarry to assist distressed emigrants in the winter of '62-'63 was opened.

THE CENSUS of the United Kingdom will be taken on the 2nd proximo. The work will be done in one day—to accomplish which an army of 34,000 enumerators have been engaged.

The stmr Grappler, having the bark Antipodes in tow, was expected last night from Hastings Mills. The Antipodes goes to Australia.

The U. S. Revenue Cutter Lincoln, Captain Hooper, arrived in the harbor yesterday afternoon from Port Townsend.

The BEATTY TROOP will be here to-day and will probably perform at the Theatre on Saturday evening.

EXPOSURE.—Thirty coal miners will leave Nanaimo for Omineca next week per Otter.

EXPRESS LETTERS to the 7th inst from San Francisco were received by the Isabel.

DEE.—The brig Robert Cowan from Honolulu.

THE OTTER will sail for Skeena on the 22nd inst.

By Electric Telegraph.
SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.
LONDON, March 14.—Roeback, via an address at Sheffield, to-night, denounced the liberation of the Penton convicts as a dastardly act, and their reception in America a disgrace to the country and another proof that she is England's most bitter enemy.

Eastern States.
WASHINGTON, March 14.—The House passed the Senate bill making the Governor of the District of Columbia one of the regents of Smithsonian Institution.

The House bill to repeal the duty on coal was read and laid over.

Sherman, from the Committee of Finance reported a bill to authorize the re-issuing of National Bank notes in exchange for mutilated bills.

CORONADO, March 14.—The returns from 54 towns show a Democratic gain of 919. The complexion of vote is not determined. There is a prospect that the Senate will be Demo-

cratic owing to the large Democratic gains in Graton County.

The Republicans fear the defeat of Griffin in the 3rd district.

It is probable that Bell—Democratic—will be elected to Congress in the 2nd district.

CONCORD, March 15.—2 a.m.—The Democrats are jubilant and are parading the streets in front of the State House.

Second Dispatch.

EXCLUSIVE

To the British Colonist

Eastern States.

WASHINGTON, March 14.—Sommer read the petition from the Dominicans against annexation. It says that Baez caused some of the patriots opposed to the project to be executed and thereby frightened many more into silence. He has imposed restrictions upon a majority of the influential citizens for the object of realizing his intention and to deceive the Government of the United States with the appearance of legality. He has forced the Dominicans to assemble for an election and compelled with threats the greater part of the citizens to vote for annexation against their convictions and interests. The majority are opposed to all foreign domination. The object of Baez is to convert into specie a large amount of bills against the Treasury of the Republic. That the annexation of Dominica would result in grave complications for the Government of the U. S. and in fatal consequences to the sons of the soil and that it would be a violation of international law. Therefore the memorialists in the name of themselves and their countrymen solemnly protest against the treaty of annexation which has been presented by the Government of President Baez to the Cabinet of Washington.

During the reading of the paper by Sommer Sherman submitted the point that the memorial was not in order as under established rules and usages of the Senate petitions from foreigners are not allowed to be presented to the exclusion of the business of the country. The Vice-President sustained the point of order, the effect of which was to prevent the further reading of the memorial. Sommer then proceeded to state the substance of the memorial. He said the position of the memorialists was peculiar. They were exiled by usurper Baez who is now engaged with the aid of American guns in selling his country. They protested against this as an outrage and a wrong because their country was about to be sacrificed. The question now was whether upon principles of justice they were not entitled to be heard. Here after some informal remarks were made as to the right of Sommer to proceed when no question was before the Senate. Motion inquired whether it was in order for Sommer to make a speech at this time against Dominica. A reply would be in order and he was in favor of that gentleman going on. The Vice-President said that if the question of order was raised he should have to decide against Sommer's right to proceed as he had already decided against the Senator from Mass. Sommer went on to say that in ruling the memorial out of order the chair had not acted upon any rule as there was none on the subject and the so called usage had changed from the date of former days. The Vice-President finally remanded Sommer that the point of order against his further proceeding had been made 3 times and unless an appeal from the decision of the chair was made he could not proceed. Sommer declined to appeal and resumed his seat.

Third Dispatch.

Europe.

LONDON, March 13.—A dispatch from Brussels says that all French prisoners in Belgium have been sent home.

A dispatch from Paris gives positive contradiction to the report that Jonyer Guerrier, French Minister of Finance, intends to make reforms in the management of the Ministry.

The Right Honorable James Stansfield, having accepted a Cabinet office, went to his constituency in the City of Halifax for reelection to Parliament and was returned without opposition.

Eight lives have been lost by the wreck of a steam launch on the coast of the Island of Jersey.

MADRID, March 12.—Serious disturbances have taken place in the province of Alicante. An armed mob fired upon the Mayor and other civic officers and a few lives were lost.

In the elections the Opposition is triumphant in consequence of the present disturbed state of the country.

The King's trip to meet the Queen has been deferred.

Cuba.

HAVANA, March 11.—A dispatch from Kingston, Jamaica, states the U. S. steamers Tennessee and Nantuxet arrived there yesterday from Port au Prince. The Commissioners are making their reports, which are strong for annexation. The Commissioners were badly received in Hayti, where Gen. Cabrel informed them that he had had no battle with Baez.

Fourth Dispatch.

California.

SAN FRANCISCO, March 16.—The steamship Pacific, with passengers and freight, arrived from Victoria, V. I. last night.

PRIME CALIFORNIA GRASS BUTTER, to be had only at Fell & Finlayson's.

NEW GOODS, Jouvins' Gloves, &c., just received by Express at Victoria House.

DECIDEDLY BUSY.—The rush of people to Noltemen's Boot and Shoe Store, adjoining the St. Nicholas Hotel, is unprecedented, and the cry is—"Still they come." The goods were sold lower than ever before, and the closing out sale will be continued this week at a still greater reduction.

Caution.

The Fashionable World and all purchasers of Florida Water, should be careful to see that they get the true "Murray & Lauman's Florida Water." All other preparations under the name of Florida Water are comparatively worthless, and possess none of the virtues of the genuine article which is prepared only by Lanman & Kemp, New York, sole proprietors.

RELIEF AT LAST!

"I have suffered much from dizziness or vertigo. Three bottles of Bristol's Sarsaparilla and two phials of Pills entirely cured me."

A CLEAN, SMOOTH SKIN.

"My blood and humors were in a very bad state. Painful sores broke out all over my body and limbs. Seven weeks' use of Bristol's Sarsaparilla and Pills made me a new man, with as clean and smooth a skin as any one could have."

J. SMITH, Marysville.

The Count of Chambord, on the Ruin of France.

The following letter has been addressed by the Count of Chambord to the Union and the Gazette de France. We should remark that the Count is the direct representative of the Bourbon Kings and is, therefore, the Bourbon claimant of the throne:

It is impossible for me longer to keep silence. I had hoped that the death of so many heroes, fallen upon the field of battle, that the energetic resistance of a capital resigned to endure all to keep the enemy outside its walls, would spare my country new trials; but the bombardment of Paris wrings from my grief a cry which I cannot restrain. The son of Christian kings who have made France, I groan at the sight of her disasters; condemned to inability to redeem them at the price of my life, I raise my testimony before peoples and kings, and protest, as much as I am able, in the face of Europe, against the most sanguinary and lamentable war that was ever waged. Who should speak to the world if not I for the town of Clotilde, of Clotilde, of Genevieve, for the town of Charlemagne, of Saint Louis, of Philip Augustus, and of Henry IV; for the capital of the sciences, the arts and of civilization? No! I will not see the great city perish which each of my ancestors used to call 'my good town of Paris.' And since I can do nothing more, my voice shall be raised from my exile to protest against the ruin of my country. My voice shall cry to Earth and to Heaven, assured of meeting with the sympathy of man and awaiting the justice of God.

HENRI.

January 7 1871.

A Prolific Countess

London Correspondence to the New York Times.

At least a score of houses have been thrown into mourning by the death of the Countess of Darham, the second daughter of the Duke of Abercorn. Your readers doubtless know that the Duke is in a double sense the creation of Disraeli, for he gave him his dukedom and put him in "Lothair," as the prototype of the Duke of Benthorn in that singular novel. He is an elegant noble who, putting the last touch to his consummate toilet, thanks heaven every morning that his family is not unworthy of him. The daughters, after seventeen years of a delicious home, were presented and immediately married and all to personages of the highest distinction. This has been really true of the Abercorn girls. Lord Liefield (Lord Elcho's brother-in-law) carried off the eldest, the next was the Countess of Darham, the third Countess of Dalkeith, her husband being heir to the Dukedom of Buccleuch; the fourth Lord Mont Edgcombe, the fifth the Marquis of Blandford, (heir to the Dukedom of Malborough) and the sixth the Marquis of Landsdowne, who is social and territorial rank is quite as great as a duke. There is still a seventh daughter who may perhaps link the crowd of family coronets with royalty itself. Strangers often laugh at Englishmen for studying the peerage so much, but in reality therein lies the clue of our politics. People who only read the debates, or drop in now and then to either House, find so many of our aristocrats on one side of the House and so many on the other. But what are party questions to family questions? When you come near any land or privilege you find you have to deal, not with Whigs and Tories, but with a compact phalanx of cousins and brothers-in-law.

In marrying Lord Lorne, the Princess Louise becomes a close kinswoman of two-thirds of our nobility. Lord Granville will be her uncle or cousin over and over again, and being himself a Gower, a Cavendish and a Howard, he is everybody's cousin in the House of Lords, to say nothing of the Vernon Harcourt out of it. But our nobility like royalty, is suffering as a caste from over multiplication—this poor Countess of Darham, for example, aged thirty-five and sixteen years married, was mother of thirteen children.

How THE 'TIMES' WAS SENT TO PARIS.—Attempts to establish a ready communication between the delegates, inhabitants of Paris and their relatives and friends beyond the German lines have given rise to many contrivances which are not unlikely to make a new era in the history of both aeronautics and photography. Among them may be mentioned the ingenious device by which two whole pages of the Times has been transmitted from London to Paris. This has been accomplished by photography. Those pages of the paper, which contained communications to relatives in Paris were photographed with great care by the London Stereoscopic and Photographic Company on pieces of thin and almost transparent paper about an inch and a half in length by an inch in width. On these impressions there could be seen by the naked eye only two legible words, "The Times," and six narrow brown bands representing the six columns of printed matter forming a page of the newspaper. Under the microscope, however, the brown spaces became legible, and every line of the newspaper was found to have been distinctly copied and with the greatest clearness. The photographs were sent to Bordeaux for transmission thence by carrier pigeon to Paris. When received there they are magnified, by the aid of the magic lantern to a large size and thrown upon a screen. A staff of clerks immediately transcribe the messages and send them to the places indicated by the advertisements. The success of this experiment gives rise to the hope that the new art of compressing printed matter into a small compass may not stop here. If a page of the Times can be compressed into a space little larger than that occupied by a postage stamp the matter of an Octavo volume might be made to cover not more than two of its own pages, and a library could be reduced to the dimensions of the smallest prayer book. What a relief it would be to the learned persons who frequent the library of the British Museum, if instead of having to make fatiguing journeys from letter A to letter B of the ponderous catalogue of books, they had its many hundreds of volumes reduced to a space a yard square, over which a microscope could be hurriedly passed. Such suggestions are now occupying the thoughts of photographers.

New Goods.—A B Gray has received per Pacific large additions to his stock of Dry Goods, comprising Silk Mantle Veilings, Velveteen, Black Silks, Colored Satins, Dress Goods, Linens, Cottons, Jackets, Kid Gloves, Skirts, Umbrellas, &c, &c, together with a varied assortment of Fancy Small Ware—Government street, March 1871.

It is a great mistake to suppose that the cause of rheumatism, neuralgia or gout exists where the pain is experienced. The source of the diseases is generally "urea," in the blood, and it is one of the special properties of Dr. Walker's Vegetable Urinary Bitters to neutralize this deposit, while it renovates the relaxed kidneys and thus prevents them from permitting a portion of their secretion to escape through improper channels. Torpidity of the stomach has also much to do with the vitiation of the blood, and upon this organ the Bitters act directly as a stimulant and invigorant.

Malaria!
Chills and fever, fever and ague, and every kind of intermittent and remittent fever, spring from miasma, viz: Inhalation of malaria, or miasma, which vitiates and depraves the biliary secretions, and deranges the natural action of the stomach and liver, and produces the above diseases. Bristol's Sarsaparilla and Pills are the surest and safest of all correctors and invigorators of the liver and stomach. They are a certain cure for malarial diseases. 679.

FOR SALE.

7:30 GOLD BONDS

NORTHERN

Pacific Railroad Co.

(Secured by FIRST and ONLY Mortgage on Railroad and Land Grant.)

WE OFFER FOR SALE AT PAR AND accrued interest, the first Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad. They are free from United States taxes in the following denominations:—Coupons \$100, \$500, and \$1000; Registered, \$100, \$500, \$1000, \$5000 and \$10,000. Principal and interest payable in American Gold Coins; the principal at the end of thirty years, and the interest, half-yearly at the rate of seven and three-tenths per cent. per annum. These bonds being purchasable in currency, the present premium on gold gives them here a yearly interest of eight per cent, thus making them the most desirable investment now on the market.

ORIENTAL MARKET,

Auction Sales.

Lumley Franklin,

AUCTIONEER, COMMISSIONER, & ESTATE AGENT

BEGS TO ANNOUNCE THAT HE HAS taken the Ringwood Brick Building in Yates street, nearly opposite Messrs. Wells, Fergus & Co's Express office. Having had eleven years' experience in the Auction business, he respectfully solicits a renewal of public support.

AUCTION

REAL ESTATE!

LUMLEY FRANKLIN

Is instructed to sell on

Saturday, March 18, 1871

At his Salesroom, Yates Street,

AT 12 O'CLOCK, M.

80 Choice Lots at Bel-

tingham Bay.

Adjoining the property of the Coal Company and near the proposed Terminus of the Northern Pacific Railway.

This property is situated at about three-quarters of a mile from the water, the county road passing through it. The ground is level and the size of the lots 64x125 feet each, having a frontage on a street of 60 feet and an Alley-way in the rear of 20 feet in width.

As there is every probability that this locality is fixed upon as the Terminus of the Northern Railway an opportunity is now offered for favorable investment which may not again occur.

Plans can be seen and further particulars obtained on application to

LUMLEY FRANKLIN,

Auctioneer.

AUCTION.

REAL ESTATE,
